PORTFOLIO [View Portfolio](#)

PROFESSIONAL PROFILE

BCA student building practical foundations in Artificial Intelligence, software engineering, machine learning and automation. Comfortable with Python, web fundamentals, Git/GitHub and AI-assisted development workflows. Focused on learning through hands-on development, problem solving and continuous improvement, with the goal of contributing to real-world AI and software teams.

TECHNICAL SKILLS

Programming	Python, JavaScript, HTML, CSS
AI & Data	Artificial Intelligence, Machine Learning fundamentals, Generative AI, Data Science fundamentals, NLP fundamentals
Automation	AI Agents, n8n, workflow automation
Development	Git, GitHub, Streamlit, Scikit-learn, AI-assisted development
Foundations	Data Structures & Algorithms, problem solving, UI/UX fundamentals

EDUCATION

Bachelor of Computer Applications (BCA) | [2024 - 2027](#)

IFTM University, Moradabad

CAREER DIRECTION

Target roles: AI/ML Intern, AI Developer, Software Engineering Intern, Python Developer

Developing toward: Machine Learning, Generative AI systems, AI agents, intelligent automation and production-ready software engineering.

Aspirational technology environments: AI and engineering teams at Google, Microsoft, NVIDIA, Amazon and OpenAI.

PROFESSIONAL STRENGTHS

Continuous learning • Practical problem solving • Curiosity for AI systems • Clear documentation • Collaborative mindset

Portfolio, GitHub and LinkedIn provide current work, code and professional updates.
